

Let's Introduce  
**the Prophet Muhammad**

[www.rasoulallah.net](http://www.rasoulallah.net)

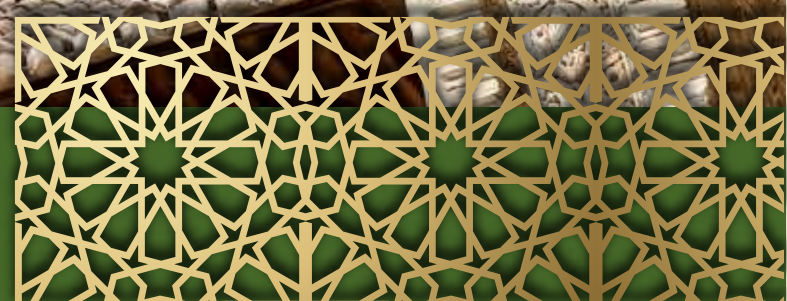

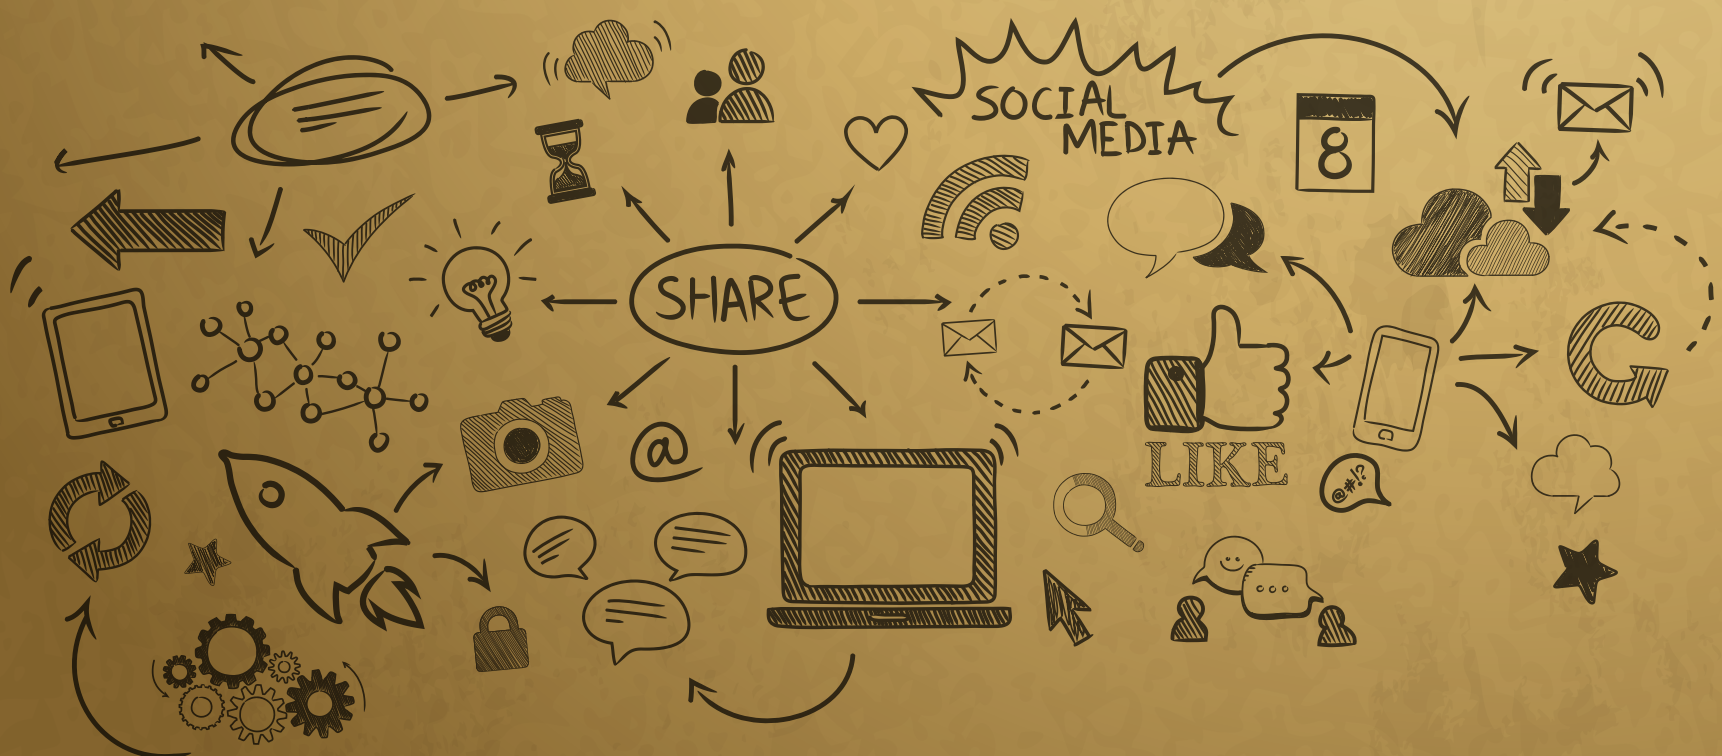

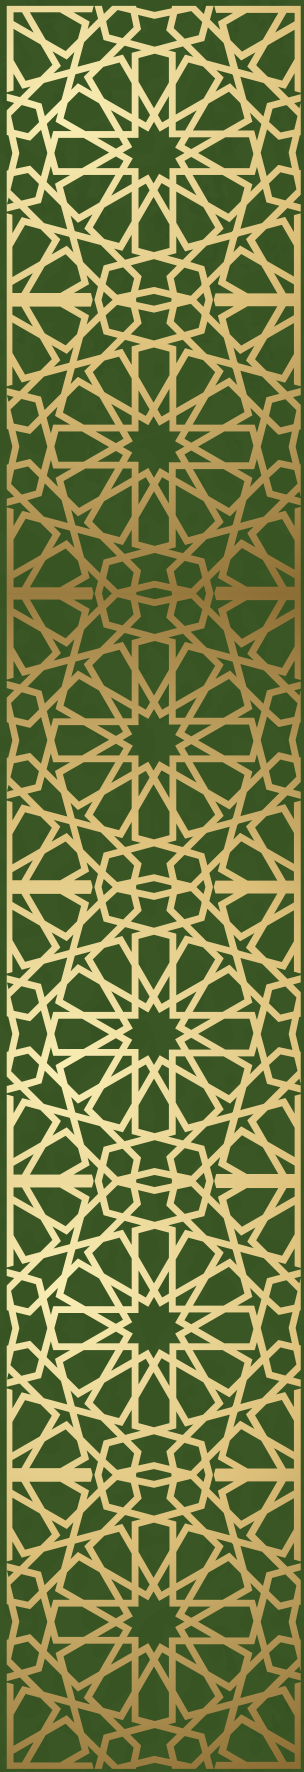

# Introduction

**A global project that seeks to help the callers to Islam and rehabilitate young people to advocate Islam and introduce Prophet Muhammad, using all modern tools and techniques.**

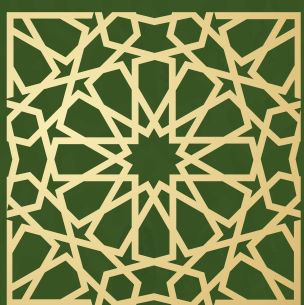

**Calling to Islam should not  
be limited to certain  
individuals; the spirit of  
Dawah should be renewed.**

**Introducing the Prophet  
Muhammad to others  
through young Muslims and  
providing the proper  
environment for that.**

# Vision

# The Message

**Introducing the Prophet Muhammad – Peace  
Be upon Him – in all places and venues  
whether virtual environments on the internet  
or actual places in every country and in  
every language.**

[www.rasoulallah.net](http://www.rasoulallah.net)

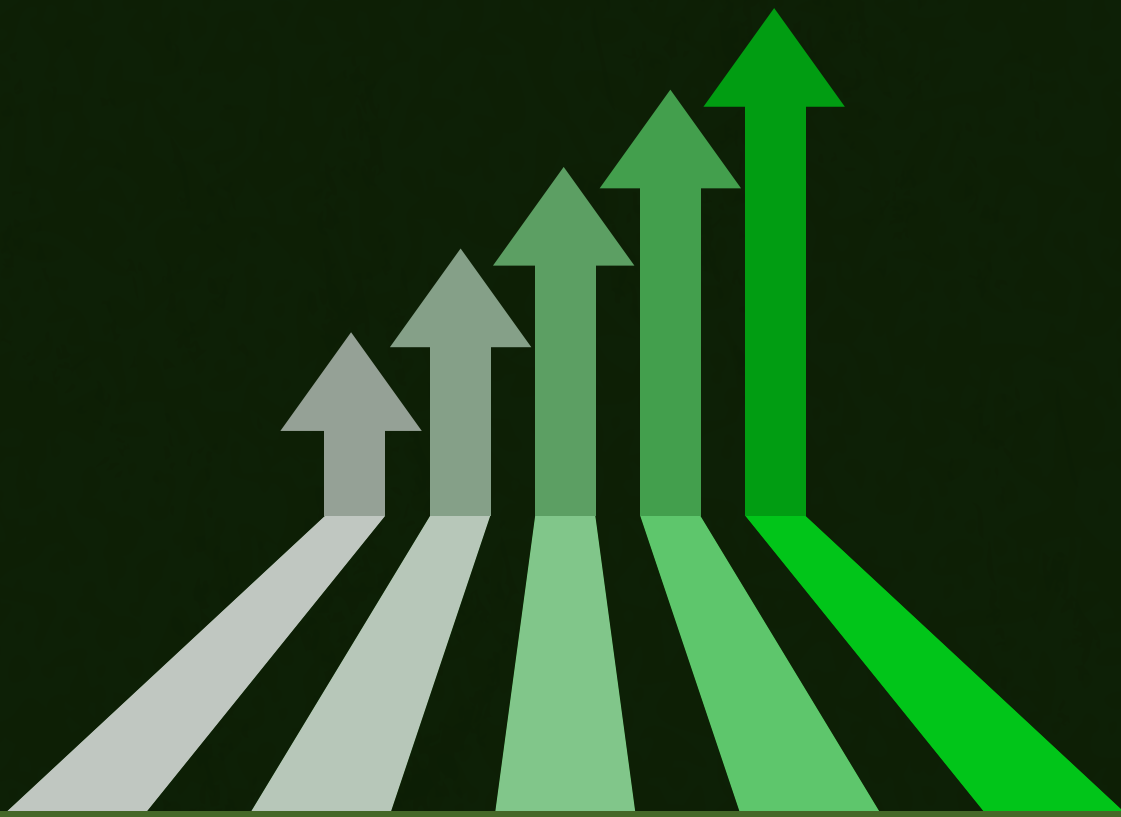

# Target Audience

**Those who are keen to call to Islam and  
introduce Prophet Muhammad, Peace  
Be upon Him, whether males or females.**

# Goals

- **Developing the trainees' conversational, self-learning and leadership skills to introduce Prophet Muhammad, Peace Be upon Him.**
- **Training young people on communication and dialogue to introduce the benefits of Islam and initiating a positive dialogue.**
- **Training young people to respond to the malicious allegations and falsehood raised about Islam.**
- **Trainees should become walking live exhibitions, spreading material about Islam and Prophet Muhammad, Peace Be upon Him, at any place they go to.**

# Implementation Mechanism and Means:

**Establishing an academy to prepare callers to Islam, it should include all the necessary curricula and materials, and everything the caller may need such as communication and dialogue skills. Also, trainees should be educated all the required terminology to fulfill the call to Islam and deliver it to others.**

**Using MCCL, the technology of the cloud library, that helps in achieving integration in educational content where system users, trainers and trainees, can publish their curricula, advocacy content and innovative projects to introduce the Messenger of Allah, in one space shared by all.**

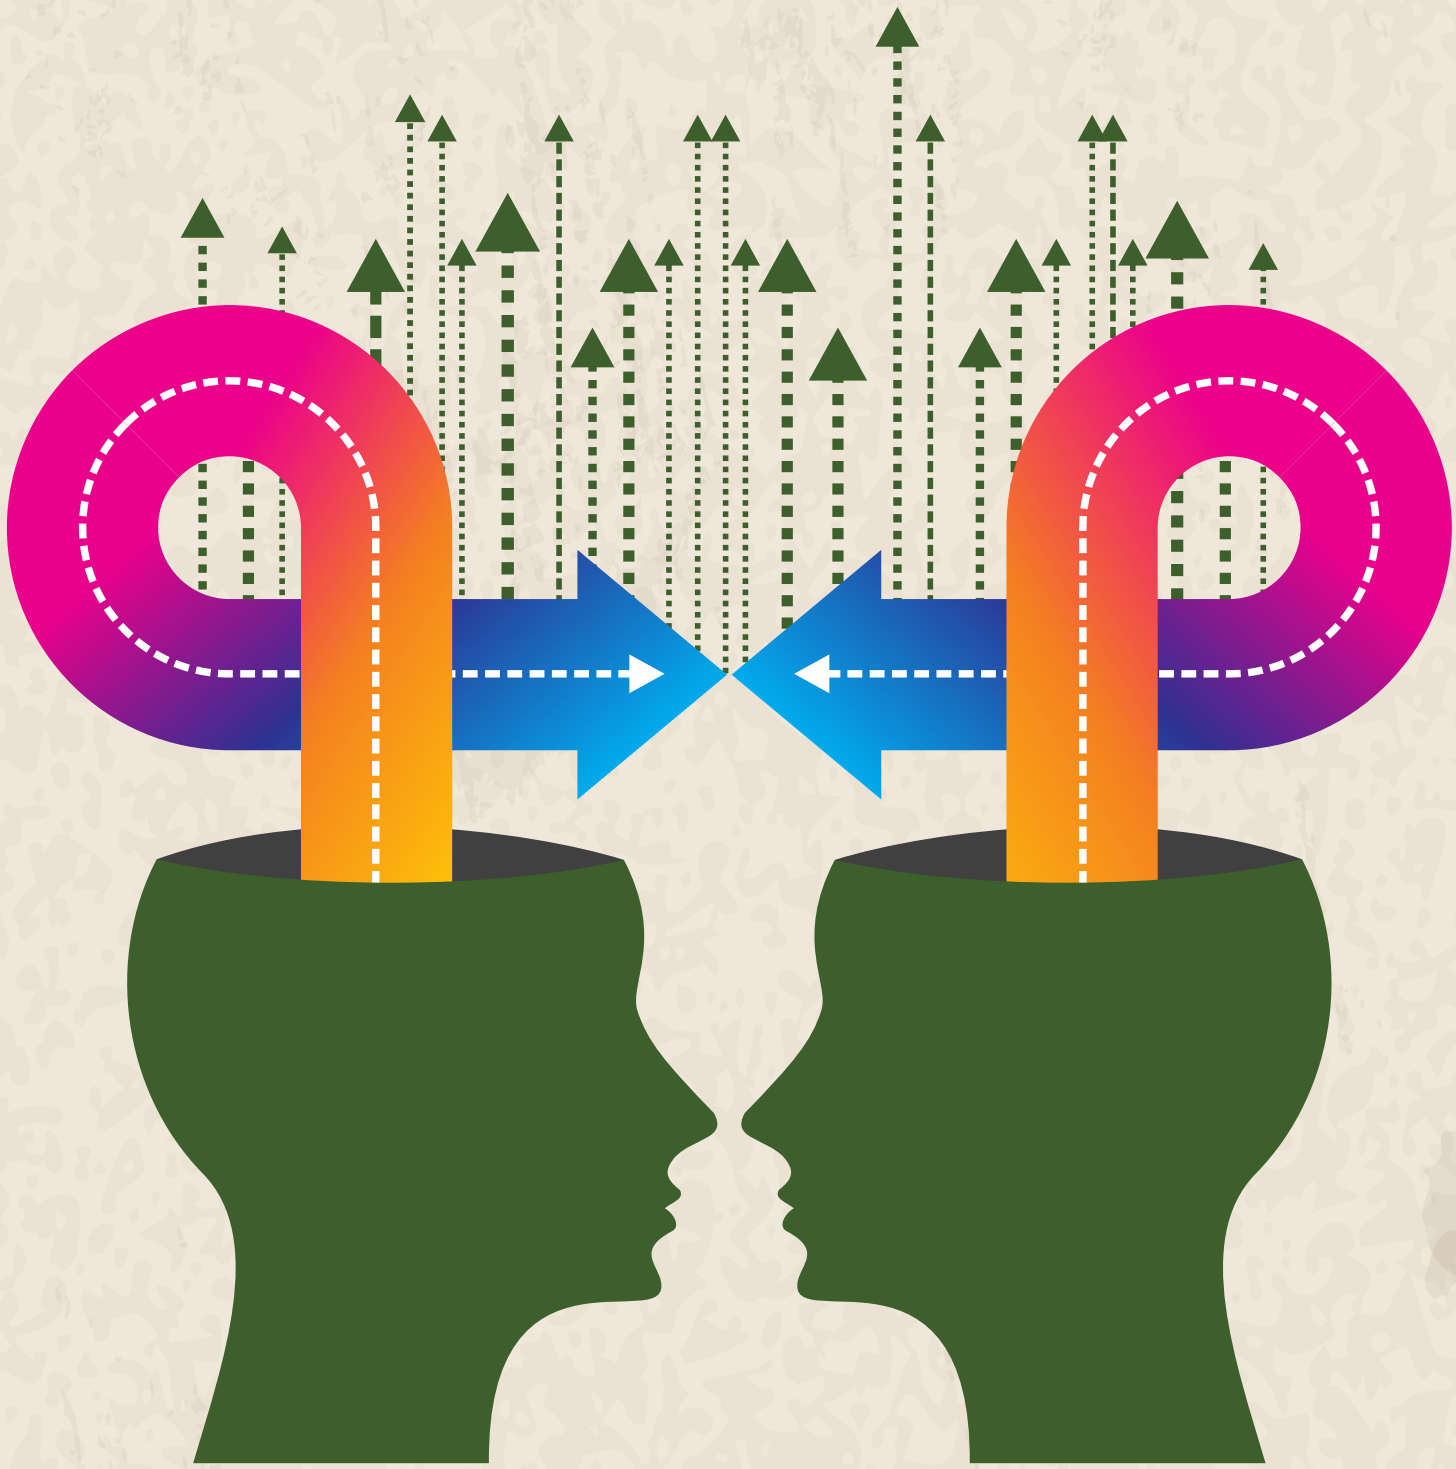

**Holding training workshops in a number of countries to prepare and educate callers to Islam to introduce Prophet Muhammad, Peace Be upon Him to others.**

**Programming and designing a website which resembles flight booking websites, where visitors can identify the place they will visit, the spoken language, they will find the necessary information about the country, the statistics of the religious status along with the database of the Islamic centers in this country. Then, visitors of the website, i.e. callers to Islam, can download a comprehensive Dawah suitcase, which includes books, audio and video materials, and Quran copies, that they can provide in the country they are planning to visit or spread it online.**

**Preparing exhibitions to introduce Prophet Muhammad all over the world, after the vision has become quite clear and complete such as**

- Providing the trainees with customized and qualified electronic suitcases
- Training callers to Islam on conversational skills and calling people to Islam.
- Cooperating with Islamic centers, and benefiting from their experience to spread Islam which will save efforts and expenses.

**There will be communication and constant support between trainees and [www.rasoulallah.net](http://www.rasoulallah.net) so that they can get the Dawah suitcase updates and new material.**

**The project will be implemented on stages, the goal in the first stage is to prepare the project in English, then other languages will follow.**

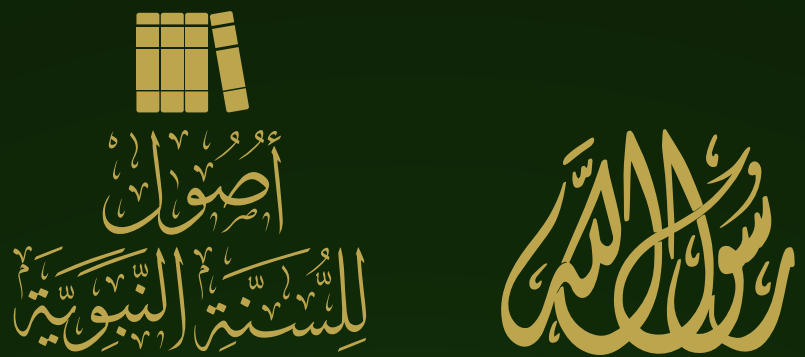

**Work will begin in parallel between producing the materials of the Dawah suitcases and the training and preparing the callers to Islam.**

*We pray to  
Almighty Allah to  
accept the good deeds  
from us, and to honor  
us with calling people*
